

## Program

# Perform rescue from a live LV panel UETDRRF06B

### Cost

Call 1800 633 638 for training costs

### Duration

3 Hours)

### Max Course Size

12

### Supervision Ratio

1:12

### Unit Competence

#### UETDRRF06B

Perform rescue from a live LV panel

Upon successful completion of this course you will receive a Nationally Recognised Statement of Attainment for the units of competency listed above

Refresher training is required every 12 months

### USI (Unique Student Identifier)

You must have a valid USI to undertake this training. You can apply online at [www.usi.gov.au](http://www.usi.gov.au) or contact our office for assistance

### Dress Code

Neat, casual  
No thongs or singlets

### Facilities

TCA Partners has free onsite parking. Morning and afternoon tea is provided

## Description

This program is designed to provide learners with the knowledge and skills required for planning LV panel work, assessing and controlling hazards, rescue of a person using a Low Voltage Rescue kit, perform CPR and manage victims of low voltage electrocution, if required, until medical aid arrives.

## Course Content

- Electrical Safety Legislation
- Planning for live LV work and managing risk, hazards and controls
- Rescue principles
- Maintenance and use of safety and rescue equipment
- Assess an incident scene and manage hazards and risk
- Conduct low voltage rescue
- Provide CPR and manage injuries sustained in low voltage electrocution
- Handover to medical personnel
- Manage work site following an incident and reporting requirements

## Prerequisites

To be eligible for the program learners must provide evidence that they have completed HLTAID001 (Provide cardiopulmonary resuscitation) within 12 months. If learners do not have a current HLTAID001 Statement of Attainment, it can be completed concurrently with this unit (the duration of the course will be extended accordingly).

Learners should ensure they do not suffer from a medical condition which could be aggravated by physical or psychological stress and must be over 18 years of age.

## Assessment

The theory assessment consists of multiple choice and short answer questions.

The practical assessment will require Learners to demonstrate the ability to recognise risks and manage hazards; conduct rescue from a Live LV incident using safety equipment; demonstrate one man drag technique; Learners must also be able to respond to the signs of an unconscious casualty, perform CPR, manage burns and communicate details of the incident.

## Language, Literacy and Numeracy

There are specific language, literacy and numeracy requirements for some of content of this course, to be deemed competent learners must be able to:

- Read and correctly interpret required documentation relevant to the execution of LV panel work, including Permit to Work and the operational instructions for use of LVR equipment
- Speak clearly and unambiguously in English
- Explain, describe and verify sometimes complex needs and issues

Writing is required to the level of completing workplace forms.
