

Program

Work safely at heights - Supervisor RIIWH5204D + PUASAR002A + HLTAID002

Cost

Call 1800 633 638 for training costs

Duration

20 Hours

Max Course Size

10

Supervision Ratio

1:10 (Theory)

1:5 (Practical)

Unit Competence

Work safely at heights

RIIWH5204D

Participate in a rescue operation

PUASAR002A

Provide basic emergency life support

HLTAID002

Upon successful completion of this course you will receive a Nationally Recognised Statement of Attainment for the units of competency listed above

In alignment with industry expectations refresher training recommended every 2 years

USI (Unique Student Identifier)

You must have a valid USI to undertake this training. You can apply online at www.usi.gov.au or contact our office for assistance

Dress Code

Neat, casual
No thongs or singlets

Facilities

TCA Partners has free onsite parking. Morning and afternoon tea is provided

Description

Australian Standard 1891.4 recognises the role of Height Safety Supervisor as requiring the following:

“Training and assessment in skills needed to:

- perform harness based work at heights unsupervised
- supervise entry level and other operators
- participate in first response rescue.”

Standalone Work safely at height – Operator training (RIIRIS204D) does not meet these requirements.

Course Content

Theory

- DRSABCD Action Plan
- Assess vital signs
- Recognise the need for CPR and CPR techniques
- Understanding the use of an Automated External Defibrillator (AED)
- The Chain of Survival
- First aid procedures for shock, bleeding and wounds
- Respiratory and cardiac emergencies
- Acute medical emergencies
- Height safety equipment – function, selection and maintenance

- Anchor systems – engineered and structural, selection and design of “appropriate” height safety systems
- Fall restraint systems – selection of equipment and implementation of “appropriate” system
